DEGREE RECITALS

SCHEDULING:

All recitals, degree or non-degree, must be scheduled with the Scheduling Coordinator, Alex Stutler (713-348-4933). Availability of Duncan Recital Hall, Hirsch Rehearsal Hall and Room 1133(Lecture-Recital Room) is on a first-come basis. No student recital shall be scheduled against a performance of a major Shepherd School ensemble such as the Shepherd School Symphony Orchestra, Shepherd School Opera, and the Rice Chorale. Also, non-degree recitals cannot be scheduled in Duncan Recital Hall during March or April before the last day of classes.

AUDIO RECORDING:

The fee for audio recording is \$50 and must be provided by the student at the time the Production Manager signs the Degree Recital Form. The Shepherd School will provide recording media and the students can pick up an audio CD of their performance from the Production Manager the day after their recital.

VIDEO RECORDING:

Video recording of recitals is possible as an auxiliary service to audio recording and will include an audio signal from the hi-fidelity stereo equipment. The fee for video recording is an **additional** \$50 (you cannot have a video without the audio recording service) and must be provided by the student at the time the Production Manager signs the Degree Recital Form. The Shepherd School will provide the recording media and the students can pick up a DVD of their performance from the Production Manager after their recital. **Video recording requests should be made at the time the Performance Production Request Form is submitted to the Production Manager so a video operator can be scheduled.**

LIVE STREAMING:

The Shepherd School is allowed to live stream degree recitals from Duncan Recital Hall using the University servers and equipment only via music.rice.edu. Students are not permitted to live stream recitals or any other performance with their own equipment such as from a phone, tablet or laptop. The school is not permitted to live stream recitals without proof of proper permission. Students must request permission from publishers well in advance in order to provide proof of permissions **no later than two weeks prior to the recital.**

ELECTRONIC ASSISTANCE

If you would like REMLABS (electronic music) assistance for your recital, you must contact Chapman Welch (electro@rice.edu) at least one month before your preview.

FORMS:

Any recital preview given without the proper forms being turned will result in the preview being invalid, and it will have to be performed again after the paperwork has been completed. Since previews must be given at least 3 weeks before the recital, unless otherwise approved by the major teacher, a preview which must be rescheduled could easily result in the need to obtain another recital date. **The appropriate recital forms are available online and must be submitted to the Graduate Administrator Coordinator Office (Suzanne Taylor) 2 weeks before the recital or one school day after the preview, whichever comes first.**

PREVIEWS / RECITALS:

All previews and recitals are required to have a minimum of one committee member present and must be performed in a recital hall. The exception is for DMA students performing concerto recitals. Before performing a concerto outside the Shepherd School of Music, students must petition the Graduate Studies Committee in writing to obtain permission.

LOCATION:

All degree recitals and previews must be performed in Alice Pratt Brown Hall. The only exceptions considered are doctoral concerto performances with a non-Shepherd School orchestra. Such performances must be approved as follows:

A recital form with the signatures of the department chair and all members of the student's doctoral committee must be submitted to the Graduate Studies Committee, at least three weeks before the scheduled performance, for the approval of the venue. It is recommended that students not book a date with an orchestra before receiving permission from the Graduate Studies Committee.

After the performance takes place the doctoral committee members must file recital evaluation forms with the Graduate Administrative Coordinator. If committee members do not hear the performance in person, they must listen to a tape and evaluate the performance on that basis. As is the case with all other recitals, the evaluations must indicate that the performance was satisfactory.

Live Streaming Request Form

The Shepherd School of Music is allowed to live stream student degree recitals from Duncan Recital Hall using University servers and equipment via music.rice.edu only. Students are not permitted to live stream recitals or any other performance with their own equipment such as from a phone, tablet, or laptop. The use of third-party services such as YouTube, Facebook Live, or other similar services to live stream content from Shepherd School facilities is not permitted. Performances will be streamed “live” on music@rice.edu. Subsequent streaming of the performance requires additional licensing permissions.

In order for the school to live stream a recital, the student(s) must certify that they have permission to stream the works on their program. One of the following three conditions must be met:

1. The work(s) must be in the public domain.
2. The work(s) is/are licensed for public performance through BMI or ASCAP. Licensing can be verified here: BMI <https://repertoire.bmi.com> ASCAP <https://www.ascap.com/>
3. The performer(s) must have written permission from the publisher(s) if the work is not represented by BMI or ASCAP. The school is not responsible for any performance fees requested by the publisher(s).

Students must provide proof of required permission(s) to live stream all of the works on their program at least **TWO WEEKS** before their scheduled recital date. Email proof of permission to Marty Merritt at marmerr@rice.edu.

NORMAL RECITAL EXPECTATIONS AND GUIDELINES

Recitals should consist of repertoire the student has not performed in any previous degree recital. Performance from memory is at the discretion of the major teacher except in the case of voice recitals, where performance from memory is required. The music combined on the required performances should encompass a broad spectrum of repertoire from 1700 to the present. An even broader range of repertoire may be desirable for vocalists, organists, and harpsichordists. Where solo repertoire from a given historical period is not available for a student's instrument, the student should consider transcriptions or arrangements in order to demonstrate a capacity to play in the styles of all periods from 1700 onward. When transcriptions or arrangements are being studied, the student is advised to request coaching from an artist teacher for whose instrument the work was originally composed.

- In lieu of either of the Master's Recitals, some students may perform a simulated orchestral audition (also known as a "mock audition").
- All students preparing recitals must discuss their programs with their major teacher and Recital Committee and submit the proposed programs to the Department Chairman for approval. Only recitals for degree credit need be approved in this manner, not other voluntary recitals. The programs submitted must include the timing for each piece and the composer's dates.

NOTE: Chamber works for which a student has enrolled in chamber music class and received (or will receive) a grade may NOT be repeated on any of the student's degree recitals.

- A preview performance of each recital must be approved by the student's Recital Committee at least three weeks prior to the scheduled date of the recital unless otherwise approved by the major teacher. (For doctoral students, however, there is no specified time that must elapse between the preview and the recital.) The preview should be performed without interruption, as if it were the actual recital, with at least one committee member present. The actual accompanist and any additional instrumentalists should work with the artist teacher who is chairman of the recital committee (i.e., the recitalist's teacher) at least once before the preview, or the preview should not be allowed to take place. The student should provide musical scores for the committee.
- **All graduate students are required to write program notes for each of their recitals.** Notes for a given work should place it in the context of its stylistic era, the development of its genre, and its composer's works. Notes should be brief and to the point; non-standard repertory will require more complete explanation. Sample program notes can be obtained from the Publication Coordinator. It is recommended that the program notes be reviewed by someone competent to check for errors in grammar, spelling, clarity of content, etc.

Exceptions to the above guidelines may be considered by the Graduate Studies Committee upon the recommendation of the student's major teacher.

Recital Playing Times:

	<u>Minimum</u>	<u>Maximum</u>
Junior Recital	45 mins.	55 mins.
Qualifying Recital	50 mins.	55 mins.
Senior Recital	50 mins.	60 mins.
Master's Recital I	50 mins.	60 mins.
Master's Recital II	50 mins.	65 mins.
Artist Diploma Recital	50 mins.	65 mins.
Doctoral Recital	55 mins.	70 mins.

Please note that the above timings represent actual performing time and do not include breaks, intermissions, etc. **Intermissions are only scheduled for brass and doctoral recitals. These should be no longer than 10 minutes when taken.**

Location. All degree recitals and previews must be performed in Alice Pratt Brown Hall. The only exceptions considered are doctoral concerto performances with a non-Shepherd School orchestra. Such performances must be approved as follows:

A recital form with the signatures of the department chair and all members of the student's doctoral committee must be submitted to the Graduate Studies Committee, at least one month before the scheduled performance, for the approval of the venue. It is recommended that students not book a date with an orchestra before receiving permission from the Graduate Studies Committee.

After the performance takes place the doctoral committee members must file recital evaluation forms with the graduate coordinator. If committee members do not hear the performance in person, they must listen to a tape and evaluate the performance on that basis. As is the case with all other recitals, the evaluations must indicate that the performance was satisfactory.

RECITAL REQUIREMENTS FOR COMPOSITION MAJORS; PERFORMANCE CONSIDERATIONS FOR THESES AND DISSERTATIONS

A. Recital Requirements

1. Undergraduate students - Senior Recital (MUSI 441). This may be one full recital or two half recitals, with a total performance time of approximately 50 minutes or as determined by the department. One half recital may be given in the junior year.
2. Two-year Master's degree students - One recital (MUSI 641) of approximately 50 minutes duration and a thesis, which consists of a composition for orchestra or other large ensemble.
3. D.M.A. students - Two recitals of music composed while a doctoral student at the Shepherd School. They have 3 options for the format: a formal recital in one of the Shepherd School's recital venues, a lecture/recital on a piece of theirs, or a CD or set of links to pieces that were played elsewhere and can't be performed here.
4. For pieces to count for recital credit they must be performed as a recital, i.e., one event scheduled and produced by the composer. Individual performances in other venues do not qualify for recital credit. In certain circumstances, off-campus performances may be considered for credit by petition to the department.
5. Music composed to satisfy the requirements for another degree - whether performed or not - may not be used to satisfy the recital, thesis, or dissertation requirements of the Shepherd School, except as stated in item 4 above.
6. If using electronic media, contact Chapman Welch (electro@rice.edu) at least one month before your *preview*.

B. Performance Considerations for Theses and Dissertations

In most cases, theses and dissertations will be performed by one of the Shepherd School orchestras (Shepherd School Symphony, Campanile Orchestra) or other large ensemble or combination. However, the school is not required to perform a thesis or dissertation if:

1. The work exceeds the normal performing resources of the school.
2. The work has been performed or is scheduled for performance by another ensemble.

GUIDELINES FOR D.M.A. LECTURE-RECITALS

The lecture should reflect significant research and analysis, including a discussion of performance practice where applicable. The composer's biographical data should be restricted to material directly related to the work being discussed, so as to leave room for substantive discussion of the work. If a large set of works is chosen, the discussion should include the general characteristics of the set, with detailed analysis of one or several of those works. Relationships to significant works that are contemporary with it could be included. Musical illustrations from the work may be used in the lecture.

By the end of the second week of the semester in which the lecture/recital is scheduled, the student must submit a topic proposal to the Graduate Studies Committee. The student must obtain the agreement of a faculty member who will supervise the lecture portion. In some cases, this person will already be on the student's Recital Committee; if not, he or she will join it just for this event. This person can be a member of any Shepherd School department. The recital should be no more than 60 minutes in length, divided equally between the lecture and performance portions.

The candidate should prepare, rehearse, and time the lecture, which should be a substantial part of the program. The entire lecture/recital should be about one hour in length. The candidate is required to give a preview of the entire program, which should be attended and evaluated by the student's Recital Committee. It is recommended that the candidate rehearse the lecture/recital in its entirety in the space in which it will be performed, employing any audio-visual equipment that is necessary. The candidate must submit the Degree Recital Form for the lecture/recital as for any other recital, and the Recital Committee must evaluate it on the Recital Evaluation Form.

GUIDELINES FOR D.M.A. CHAMBER MUSIC RECITALS

For doctoral programs that require a Chamber Music Recital:

1. Length of 55-70 minutes of music (see Normal Recital Expectations).
2. Preview required (see Normal Recital Expectations).
3. Just as for other types of recitals, candidate must submit the Degree Recital Form, and the preview and recital must be evaluated by the doctoral committee on the appropriate forms (see Normal Recital Expectations).
4. The preview should be performed without interruption and with all performers present, as if it were the actual recital (see Normal Recital Expectations). The student should provide musical scores for the committee.
5. Recitals should consist of repertoire the student has not performed on any previous degree recital (see Normal Recital Expectations).
6. Chamber works for which the student has enrolled in chamber music class and has received (or will receive) a grade may NOT be repeated on any of the student's degree recitals (see Normal Recital Expectations).
7. Just as for other types of recitals, it is the candidate's and the major teacher's responsibility to prepare and present a polished performance. However, it is advised that the candidate seek coaching from other faculty members who specialize in the types of ensemble music programmed.
8. The candidate is advised to consider the complex logistics of a recital involving different ensembles when selecting the program and scheduling the preview and recital.

PROGRAM NOTES:

The musical world knows of the existence of Pandolfi Mealli from one small mention in the court records of Innsbruck in 1660, and the two volumes of violin sonatas from the same year, *Opp. 3-4*. The rest of his music, including the earlier two volumes of sonatas was apparently lost when the court was disbanded and the boat carrying the music library to Vienna sank in the Danube. Pandolfi's musical lineage is quite apparent in the light of his musical devices which recall Monteverdi and Rossi. Pandolfi dedicated the *Opus 3, No. 2*, to the Innsbruck Kapellmeister, Antonio Cesti, one of the great operatic composers, and the use of vocal ornamentation (trills, florid *passaggi*, haunting long, expansive notes) and the "a la battaglia" style all point to an accurate portrait of Pandolfi's colleague. The moving variations over a ground bass in the middle section inspired the Schmelzer Sonata.

After listening to Telemann's magnificent *Saint Mark Passion* last summer, I decided that the *Twelve Fantasias for Violin Solo* needed another look. I had considered these works to be rather boring and trite when I studied them 30 years ago, but now I find them wonderfully inventive and filled with humor. The twelfth fantasia opens as a compendium of pomposity, grandiose ideas that parody every style, and go nowhere. Cadences are prepared, then trickle off to the wrong key, or repeat themselves nonsensically. The *Giga* might be titled "the inept modulator" as the line tries and tries to succeed in attaining some sort of satisfying arrival. The *Gavotte* displays a paucity of ideas, repeating the monotonous eighth-note patterns, but the ending is masterful, as we are left wondering what happened to the rest of the piece!

Schmelzer's Fourth Sonata of the 1664 collection *Sonatae unarum fidium* is an extraordinary set of variations over a ground bass. Except for the two Adagio indications where a florid continuo cadence is intended, the tempo remains constant. Each variation has individual character including dances (Sarabanda, Giga, Allemanda, Corrente) and many diminutions of exemplary style. It is interesting to note that Schmelzer, an Austrian, wrote in Italian style, Pandolfi, an Italian, was attached to an Austrian court, and Telemann, a German, wrote in a synthesis of Italian, French, and German styles.
